6 Application Notes

- RS232-to-USB converting needs to be done by user. FTDI chip is recommended.
 - * Benchtop is available at <https://agiltron.com/>.
 - * RS232-to-USB converting PCB is also available at <https://agiltron.com/>.
- Upon accomplishment of the above EDFA can be remotely controlled by UART commands or the 'EDFA GUI' program (EDFA-N option) provided.
- Heatsink is needed for this EDFA, as shown below.
